CAPABILITY STATEMENT

DARK SWAN CONSULTING

Forward-deployed talent for Palantir Foundry, Gotham, AIP and Maven Smart System programs.

WHO WE ARE

Dark Swan Consulting fields former Palantir deployment strategists (Echo) and forward-deployed software engineers (Delta). We stand up, build on and run Palantir deployments for government mission owners and for the consulting firms and primes that deliver for them.

CORE COMPETENCIES

- **Data integration.** Source systems connected and kept current, with lineage, health checks and access controls.
- **Ontology design.** The mission modeled as objects, links and actions.
- **Operational applications.** Workshop and OSDK applications in TypeScript and React.
- **AIP agents and logic.** AI that proposes and writes back under human review, with evaluations.
- **Pipeline engineering.** Python, PySpark and SQL transforms, tested and scheduled.
- **Adoption and operations.** Workflow design, training and program operating rhythm.

WAYS TO CONTRACT

Embedded specialist	One strategist or engineer in your team. Time and materials.
Deployment team	A managed unit of 2 to 5 that owns a workstream.
Fixed-scope sprint	A defined outcome in 4 to 6 weeks. Fixed price.
Assessment	Independent review and roadmap in 2 weeks. Fixed price.

By subcontract under your prime contract or task order, or by master services agreement and statement of work.

DIFFERENTIATORS

- Founder spent more than ten years inside Palantir as a deployment strategist, developer and evangelist on defense and civil government programs.
- Cleared personnel, including active TS/SCI.
- Founded and led by U.S. military veterans, including U.S. Army Special Forces.
- In delivery today on a Palantir Foundry program for a major defense prime.
- Cygnus, our own market system: a sourced record of 49 government programs on Palantir platforms and 56 contract vehicles.

MISSION AREAS

Investigations and law enforcement · Defense and special operations · Civil government and public health · Commercial performance improvement and turnaround
